

ART ACCREDITO C. NEROZA

Senior Full-Stack Developer - React / Next.js - Node.js - PostgreSQL - WordPress

La Union, Philippines | art.neroza@gmail.com | <https://www.linkedin.com/in/art-neroza/> | <https://artneroza.com>

PROFESSIONAL SUMMARY

Full-stack developer with over a decade of experience building and shipping production web applications. Specializes in WordPress, PHP, React and Next.js front ends backed by Node.js, Nest.js, Supabase and PostgreSQL, deployed on Vercel and cloud infrastructure. Owns features end to end architecture, implementation, deployment pipelines, DNS and infrastructure, and post-release debugging without needing the path mapped out first. Works daily with AI-assisted development tooling including Claude Code and GitHub Copilot.

TECHNICAL SKILLS

Frontend: React, Next.js, Vue.js, Vite, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind, Bootstrap

Backend: Node.js, Nest.js, Express.js, REST API, GraphQL, Webhooks, Third-party API integration, PHP

Databases: PostgreSQL, Supabase, MySQL, MongoDB, SQL data modelling and migration

Infrastructure & DevOps: Vercel, AWS, Oracle Cloud, Nginx, PM2, systemd, GitHub Actions, CI/CD pipelines, DNS, SMTP/SPF/DKIM

CRM & Automation: HubSpot (Operations Hub Professional, custom code workflows, API), GoHighLevel, n8n

AI-Assisted Development: Claude Code, GitHub Copilot, ChatGPT, Gemini, OpenAI API, Firecrawl

CMS & Ecommerce: WordPress (custom themes, plugins, Gutenberg blocks), Shopify

Tools: Git / GitHub, Figma, Google Analytics, Google Tag Manager

PROFESSIONAL EXPERIENCE

Senior Full-Stack Web Developer | Eternal Homes, Australia (Remote) | May 2023 – June 2026

- Built and maintained the Eternal Homes Channel Partner Portal, a Next.js 15 / Supabase / Vercel application, as the sole developer responsible for the full lifecycle from architecture through to production release.
- Designed and deployed automated GitHub-to-cloud deployment pipelines on Oracle Cloud infrastructure using Nginx, PM2, systemd and webhooks, replacing manual deployment.
- Led a complete platform ownership migration GitHub, Vercel and Supabase accounts transitioned from personal to company administration with no service interruption.
- Configured production email infrastructure end to end: SendLayer SMTP with SPF, DKIM, CNAME and TXT verification on a subdomain-scoped sending architecture.
- Managed DNS, domain verification and multi-domain consolidation via .htaccess redirect strategy across the company web estate.
- Integrated HubSpot and GoHighLevel CRM APIs and delivered HubSpot reporting dashboards including deal-velocity reports and KPI tiles for client sales teams.
- Developed the company WordPress property site - custom property status taxonomy with admin controls, parallax and banner animation work, and maintenance-mode handling.

Full-Stack Developer | Freelance (Remote) | July 2020 – May 2023

- Delivered full-stack applications directly to clients across React, Vue.js, Node.js and Ruby on Rails, with PostgreSQL, Supabase and MongoDB backends deployed on Vercel.
- Built custom WordPress and Shopify storefronts from skeleton themes, custom plugins, custom Gutenberg blocks including bespoke plugin development and REST API integrations.
- Acted as sole technical contact for each engagement - scoping, estimation, delivery and ongoing support.

Senior Web Developer | SlideGenius Interactive, Makati City | November 2018 – July 2020

- Led and trained the web development team, owning task allocation and development workflow design.
- Built custom Gutenberg blocks in React and developed WordPress custom themes and plugins deployed across multiple client projects.
- Implemented HubSpot forms and CRM platform integrations for client marketing operations.

Web Developer | SharperEdge.net, Sydney, Australia (Remote) | May 2018 – October 2018

- Developed WordPress sites on the Genesis Framework with custom PHP and jQuery.
- Delivered SEO and content optimisation supported by Google Analytics and Google Tag Manager reporting.

Web Developer | Technodream Web Works, Baguio City | April 2014 – December 2017

- Built responsive, dynamic client websites in HTML5, CSS3, JavaScript and jQuery, including AJAX-driven interactions.
- Created customer-facing websites using various Content Management Systems such as WordPress, Joomla, and X-Cart.
- Developed back-end applications in PHP using CodeIgniter and Laravel.
- Ran client requirements gathering and planning, and administered hosting, domains, mail, FTP, cron jobs, backups and databases via cPanel.

EDUCATION

Bachelor of Science in Information Technology | Saint Louis University, Baguio City, Philippines | March 2014

CERTIFICATIONS

- Certified Lean Six Sigma Yellow Belt (CLSSYB)
